

Features:

- -1,000' Operating Depth
- Single Function Electric Manipulator
- High-Resolution Color Zoom Video Camera
- High-Resolution B&W Video Camera
- Ultra low light camera
- High-Resolution Color Imaging Sonar
- Camera Tilt
- Electronically Controlled
- Depth and Heading
- Climate-Controlled Operations Van
- Rapid System Deployment
- Deployed With Complete Spares

Documentation:

- DVD (Video and Sonar)
- Cathodic Potential Measurements
- Data Recorded on Video
- Video Annotation System for On-Screen
- Recording of Depth, Heading and Inspection information

Inspections & Surveys, Search and Recovery:

- External/Internal Pipelines
- Offshore Platforms
- Cathodic Potential
- Power & Communications Cables
- Dams
- Insurance Surveys
- Biological-Geological Surveys

Optional equipment:

- Silicon-Intensified Target
- Laser Scaling and Precision Measurements
- Broadcast Quality Video
- High-Resolution Digital Imaging
- Digital Video Recording
- Grab Sampling
- Acoustic Tracking
